

Sprint 2 Plan

Heading:

Product Name, Team Name: Axon

Sprint completion date: Tuesday, November 05, 2024

Revision #0, Revision Date: Wednesday, October 23, 2024

Goal

Create a pop out window for each node, and be able to save the state of the board to a database. Add authentication to allow users to sign in.

Task Listing

User story 1: As a user, I want to be able to see the information that each node represents in a pop out window. (5)

- Task 1: Create a pop out window that appears when you double click on a node (2)
- Task 2: Allow the user to write notes in that window, and save it to that node (3)
 - Subtask 1: Display the name of the concept as a heading for the node
 - Subtask 2: Allow the user to write text underneath the heading to elaborate on the concept

User story 2: As a user, I want to be able to save the state of my notes so I can refer to them after closing the window (13)

- Task 1: Implement the ability to save the state of the graph to the backend database

User story 3: As a user, I want to be able to access my notes no matter what device I'm on (8)

- Task 1: Create a login page that would let the user create and log into an account (2)
- Task 2: Implement user authentication to allow users to save their board their account (6)

Backlog User Story 6: As a user, I want to be able to completely clear my canvas quickly. (3)

- Task 1: Make a clear button to clear the canvas. (3)

Team Roles

Sakshi: Product Owner, Developer

Prasiddh: Scrum Master, Developer

Umair: Developer

Nikolas: Developer

Emma: Developer

Initial Task Assignment

Can be found on the scrum board (<https://github.com/orgs/Axon-115A/projects/4>)

Sakshi: Try to implement a save button

Umair: Work with Nikolas, create a pop out window for notes.

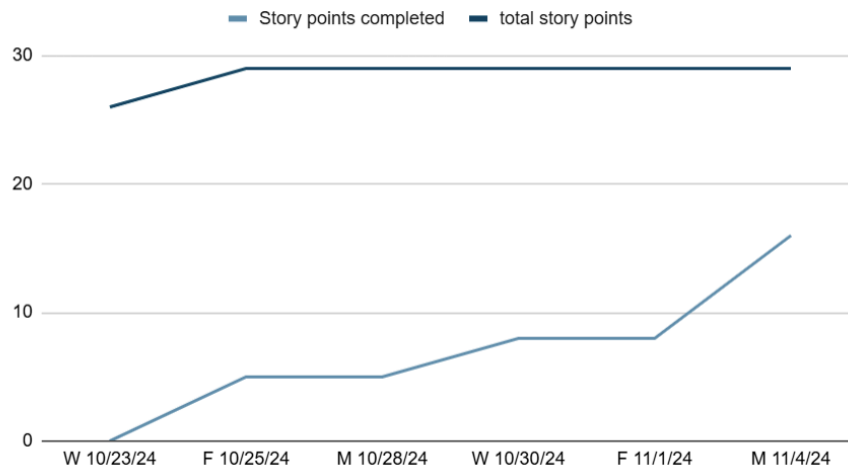

Prasiddh: Create login page

Nikolas: Work with Umair, create a pop out window for notes.

Emma: Help with the database

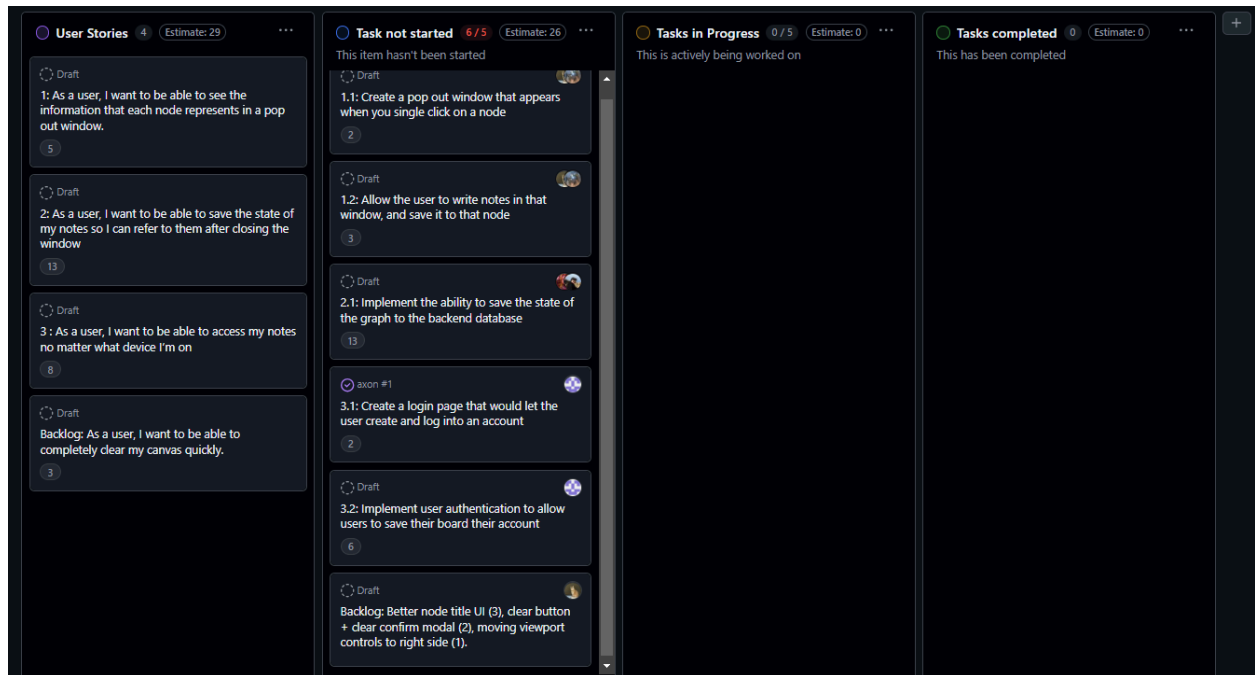

Initial burnup chart

Points scored
