Sprint 1 Report

Heading:
Product Name, Team Name: Axon
Date: Monday October 23, 2024

Actions to stop doing: Stop waiting until the last moment to implement features because it results in a scramble that usually ends unproductively.

Actions to start doing: Communicating more about what we need to finish before the sprint end date. Scheduling more group work sections because they are more effective than working alone, and we can ask each other for help if we run into issues.

Actions to keep doing: Keep communicating and taking initiative in doing tasks.
